## Goal

You are Auber, the constable of the station 'Deep Space Y', and your job is to enforce law and order. The space station has been recently infiltrated by a team of eight hostile operatives whose mission is to sabotage key systems of the station and render it inoperable.

The aim of Auber is to save your ship by arresting 8 infiltrators across the map. They can be detected through sabotage attempts on key systems scattered around the map, your role is to go up to them and arrest the infiltrator. You must arrest all 8 infiltrators in order to win.

The game features 3 difficulty modes: Easy, Medium & Hard, as well as player abilities you can utilise during your mission. You are also able to save the game at any time, and continue whenever you wish.

## Powerups

You will have some assistance in your efforts to arrest the infiltrators in the form of collectable powerups. These are represented in the game as small circles with a letter to indicate the ability it will grant you. Simply walk over the powerup to pick it up, and press **Q** to activate it. The abilities are as follows:

**S** - Speed - increase your movement speed for 15 seconds

**V** - Vision - your view zooms out for 25 seconds, allowing you to see more

**R** - Repair - activating this powerup will repair a random system to 100% health

**A** - Arrest - activating this powerup will automatically arrest a random infiltrator

## Infiltrator abilities

You aren't the only one with special abilities, your enemies also have powers they can use against you. If you get too close an infiltrator may slow you, halving your movement speed for a short duration. Infiltrators can also temporarily increase their own speed in order to escape from you. Infiltrators can also attack you, dealing damage. Be careful not to get hit too much as if your health bar runs out you lose the game.
